
TOSHO KLECHKAROSKI

SOFTWARE DEVELOPER

ABOUT

Software Engineer with 3 years of experience with all stages of the development cycle for dynamic web projects. Well-versed in numerous technologies, including core JavaScript, Typescript, React.js, Next.js, NodeJS, and PostgreSQL. Proficient in the support world as well as the development side of the fence.

EXPERIENCE

● Software Developer

Banzae | Feb 2023 – June 2026

Working on multiple production web applications and internal platforms, contributing to both **frontend and backend development**.

PROJECTS

1. Vigor – Fitness Application

- Contributed from the early stages of the project development
- Implemented core backend APIs, data models with their attributes, using LoopBack 4
- Implemented login and authentication flows
- Built reusable core frontend components
- Integrated frontend with backend services using React Query
- Implement push notifications

2. mZaednica – Community Platform

- Assigned to the project to implement new features related to the poll system
- Developed both backend logic and frontend functionality for poll features
- Integrated new backend functionality using Strapi
- Fix some old bugs

3. Organico – Platform for buying and selling organic food

- Participated in major updates to the application's business logic
- Refactored and improved backend functionality
- Implemented both frontend and backend features
- Contributed to improving the application structure and behavior

4. EVA – Business Platform

- Developed and maintained application features
- Maintained and improved
- Working on migrating the application from Redux to React Query
- Implementing new features and improving existing modules
- Participating in both frontend and backend development tasks
- Fix bugs

EDUCATION

Computer Science & Engineering

Faculty of Computer Science & Engineering (FINKI), Skopje, North Macedonia

TECHNICAL SKILLS

Frontend

- React
- Next.js
- Material UI (MUI)
- Ant Design
- Redux
- React Query
- JavaScript / TypeScript
- HTML5 & CSS3

Backend

- Node.js
- LoopBack 4
- Strapi
- REST API Development

Database

- PostgreSQL
- Kysely
